ABOUT ME

I'm a full-stack developer who enjoys building both web and mobile applications. I work with the MERN stack and MySQL, and I develop mobile apps using React Native with Expo. I'm also very interested in design and see myself as a digital designer, with a strong focus on UX. I care a lot about colors, layout, and overall user experience, and I'm comfortable working with Figma. I also have good knowledge of SEO and web security, which I try to include in my projects. I started my journey with ICT courses at Varia College, where I gained a solid technical foundation.

I'm always eager to learn and adapt to new technologies

SKILLS

- Full-Stack Development (MERN, MySQL)
- Mobile Development (React Native, Expo)
- UI/UX & Digital Design (Figma, User-Centered Design, WordPress)
- Security (JWT, Data Protection)

sybersecurity Certificate Cisco	2023

LANGUAGES

English	Excellent
Finnish	B2.2

WORK EXPERIENCE

CoreOrient oy Summer 2023
WebDeveloper

I interned as a web developer at a Finnish company, where I had full responsibility for improving their WordPress site and its security. I also created a custom PHP plugin and gained strong knowledge of UI, UX, and SEO. I received a 5/5 evaluation for my work.

Mobile Delevoper Winter Intern 2024

Vesko Oy
I started learning React Native with Expo during my internship to challenge myself, and I'm happy that I have improved my skills. I worked on the notification feature, similar to Instagram. I also followed their Figma design structure and used their theme and styling. Additionally, I participated in their weekly meetings and improved my understanding of Agile development. I received a 5/5 evaluation for my work.
