PROFESSIONAL SUMMARY

Full Stack Software Developer with hands-on experience across the entire stack — from UI design in Figma, through React and React Native frontends, to backend development in both Node.js/Express and ASP.NET Core/C#, with SQL and NoSQL databases, REST APIs, and JWT-based authentication. Experience building and maintaining business-critical applications, including a live production website and multiple complete applications-built end to end. Founder and Project Owner of Apua, a mobile application built to support senior citizens, taken from concept through to near launch with a small team. Comfortable with cloud platforms (Azure, AWS), Docker, and Agile/Scrum collaboration. Currently completing a Bachelor of Engineering in Information Technology (Software Engineering, Mobile Solutions) at Metropolia University of Applied Sciences, with 125 ECTS credits completed, and actively looking for an internship or thesis-project opportunity to complete as part of my studies. Fluent in English and Persian, with strong Finnish (B2.2).

PROJECTS

HelpDesk Ticket System API — ASP.NET Core 8, C#, Entity Framework Core, SQL Server, JWT, Swagger, Docker

- Built a complete backend HelpDesk Ticket Management System with secure authentication, role-based authorization, ticket management, and ticket comments.
- Implemented JWT authentication, BCrypt password hashing, and protected API endpoints with Swagger documentation.

HelpConnect | Full-Stack Web Application — React, Node.js, Express.js, PostgreSQL, REST API, JWT, TypeScript

- Designed the UI in Figma, then built the application end to end: React frontend, Node.js/Express backend, PostgreSQL database, and JWT-based authentication.
- Wrote and tested REST API endpoints using Postman, and collaborated in an Agile environment.

Apua | React Native Mobile Application — React Native, Expo, TypeScript, REST API

- Co-founded and led a small development team as Project Owner, building a senior-care mobile app from concept toward production release using Agile methodology.

PROFESSIONAL EXPERIENCE

Software Developer Intern | Coreorient Oy — Finland

- Independently maintained a live, production company website using WordPress and PHP, resolving bugs and improving functionality, security, and SEO.
- Participated in project meetings and requirement discussions with stakeholders.

Software Developer Intern | Vesko Oy — Finland

- Learned React Native quickly and independently built the full notification system on the frontend team.
- Collaborated with the Product Owner and UI/UX Designer, integrated REST APIs, and participated in Agile ceremonies and code reviews.

Travel Consultant | Arshin Parvaz Travel Agency — Iran

- Assisted customers with planning, reservations, invoicing, and payment processing in a fast-paced, service-oriented environment.
